

# AQUA ONE 100% STEAM DISTILLED WATER

**100% steam distilled water**

**Chlorine, Sodium, Potassium & Chemical Free**

**Bottled in food grade polycarbonate & PET bottles**

**Available in 1, 4, 12 & 18.9 ltr bottles.**

Distillation provides mineral-free water to be used in science laboratories, drinking, printing, polishing & many other purposes.

Distillation process will reliably remove bacteria and viruses and dangerous heavy metals like lead, arsenic, and mercury. Distillation is ideal for recipients of non-municipally treated water, due to the particular challenges and heavy contamination of raw, untreated water.

Distillation is extremely effective at the removal of bacteria, virus and often used in areas at high risk of waterborne diseases. Distillation also removes soluble minerals like calcium, magnesium, and phosphorous, heavy metal material like lead, arsenic & mercury from water.
